

CIRCit, is developing a suite of tools and methods to support the Nordic Industry in making the transition towards a Circular Economy. We're hosting workshops in all five Nordic countries throughout winter. This is your opportunity to engage!

Join us for an afternoon of knowledge exchange!

Be inspired by our newly developed tools, success cases of Nordic companies, and explore the opportunities within Circular Economy for your company!

Circular business models

How to develop new circular business models?

Design of circular products

How to design for circularity?

Circular intelligent assets

How can digitalisation provide more value?

Closing the product cycle

What is the best circular strategy for end-of-use?

Circular value chains

What potential lies in your value chain?

Sustainability screening

Is circular more sustainable?

One workshop per country

The workshops are designed for manufacturing companies and you will get to try some of the tools to support your company's journey towards Circular Economy.

Registration:

www.circuitnord.com/category/news

- 1 13/12-2018: Helsinki, Finland
- 2 09/01-2019: Reykjavik, Iceland
- 3 15/01-2019: Gothenburg, Sweden
- 4 23/01-2019: Oslo, Norway
- 5 05/02-2019: Copenhagen, Denmark

The CIRCit project is a Nordic research project aiming to increase the proficiency of the Nordic Industry towards Circular Economy, so as to increase competitiveness in the short, medium and long-term.

The workshops are organised by the CIRCit consortium:

DTU, RISE, Innovation Center Iceland, Technology Industries Finland and NTNU.
